MILWAUKEE WATER COMMONS

Community Water Assembly

A community-led body which fosters decision-making, leadership and stewardship for our water and advances Milwaukee as a model water city.

The CWA...

- Is comprised of individuals from a broad range of organizations, communities & sectors
- Brings local knowledge & wisdom to current Milwaukee water issues
- Promotes overall advancement & public awareness of the Water City Agenda
- Supports diverse members of the community with different concerns, constituencies & interests working together to solve common problems

Based on the premise that we can only achieve equitable solutions to community water issues if everyone is included in the decision-making process, enabling real & authentic community leadership.
